

Key features of the corpus include:

- 

The L2 Chinese learners in the corpus are students of Chinese as a second/foreign language at GDUFS, China. They come from a large variety of countries worldwide. L1 Chinese speakers in the corpus are staff and students at GDUFS.

Photos by Guangdong University of Foreign Studie

The data (spoken and written) was collected from exams and tutorial sessions carried out at GDUFS. The written texts are usually short pieces and essays on a given topic. Spoken data comprise interactions typically between native and non-native speakers of Chinese and involve one, two or multiple speakers.
